- Jest
- Git & Github
- Ubuntu
- Figma

EDUCATION

Advanced web development with Javascript

Abdul aziz al ghurair school of advanced computing | Amman, Jordan • Apr 2023 - Oct 2023

A 6-month boot camp powered by Code Fellows. Throughout the program, I gained hands-on experience with the latest technologies and frameworks, including Node.js, React, Express, and PostgreSQL. I learned how to design and build scalable and dynamic web applications from scratch. The program also included comprehensive training in data structures. Additionally, I had the opportunity to work in teams to solve problems and create projects.

Bachelor of Software Engineering

Zarqa university | Zarqa, Jordan • 2019 - 2022

PROJECTS

Virtual Intreviewer & Virtual Conversationalist
May 2024

A web app to help you Improve your interview skills and English speaking effortlessly with practice sessions tailored for interviews and conversations.

NextJs, Tailwind CSS, Web Speech API

SHAT..
Feb 2024

This web app enables users to connect, chat, and edit their profiles. Users must create an account to search for others, browse suggested users, and engage in conversations.

ReactJs, Nodejs, ExpressJs, Postgresql, Sequelize
